About the University

G H Rasoni University, Amravati (GHRUA) is a vibrant community of academicians and learners that helps students to choose and succeed in the field of their choice. The University is committed to the present day knowledge-driven global economy by imparting state of the art education to the aspiring and ignited young minds to prepare them to succeed, flourish, and prosper in their career. A naturally green campus of the University having excellent location with easy approach from all sides of the city facilitates the environment friendly atmosphere for all round development of the students. This is a massive educational institute in central India aimed at providing quality undergraduate and postgraduate programs to the students. The University is a private university, located near Nimbhora, Anjangaon Bari Road, Badnera, Amravati – 444701. The University offers various courses at various levels of Diploma, UG, PG and PhD in the field of Science, Engineering & Technology, Commerce & Management, Pharmacy, Hotel Management and Law.

About the School

The school of Management Studies at G H Rasoni University, Amravati is committed to excellence in teaching, research, and innovation in the rapidly evolving domains of management studies. The school offers BBA and MBA programmes designed in alignment with the NEP-2020 framework, focusing on outcome-based education, multidisciplinary learning, and skill development.

The curriculum is carefully structured to provide strong fundamentals in management, hospital management, pharmaceutical management.

conference room to support interactive learning.

With a team of qualified and experienced faculty members, the school actively promotes research through publications, patents, funded projects, and collaborations with industry and academia. Regular activities such as workshops, FDPs, guest lectures, and technical events enhance students' practical exposure and professional competencies.

The school strives to nurture innovative, ethically responsible, and industry-ready managers capable of addressing real-world challenges and contributing to technological advancement.

Outcomes of the FDP

1. Demonstrate understanding of Artificial Intelligence and their applications in management education.
2. Awareness of current industry trends and their relevance to management education.
3. Faculty equipped to deliver more practical, relevant, and skill-based education.
4. Encouragement to undertake interdisciplinary research in AI and management.
5. Enhance student engagement and learning experiences using AI-driven approaches.

Overview of FDP:

This Faculty Development Program (FDP) aims to equip educators with the knowledge and practical skills required to effectively integrate Artificial Intelligence (AI) into higher education. With the rapid advancement of AI tools such as large language models and content generation systems, the program focuses on transforming traditional teaching-learning processes into more adaptive, personalized, and technology-driven approaches.

The FDP emphasizes curriculum design, enabling faculty to redesign courses that incorporate AI-assisted learning, project-based methodologies, and interdisciplinary approaches. It also explores assessment innovation, highlighting alternative evaluation strategies such as AI-supported formative assessments, open-book examinations, and competency-based evaluation to ensure deeper learning outcomes.

A key component of the program is academic integrity, addressing ethical concerns, plagiarism, and responsible use of AI tools in academic settings. Participants will gain insights into

policy frameworks, detection mechanisms, and best practices to maintain fairness and transparency in education. Overall, the FDP empowers educators to responsibly harness Artificial Intelligence (AI) for enhancing teaching effectiveness, student engagement, and institutional excellence.

Objectives of the FDP :

1. To build foundational knowledge of Artificial Intelligence and its applications, enabling educators to effectively understand and utilize AI tools in higher education.
2. To enhance teaching-learning practices by integrating AI-driven, adaptive, and personalized pedagogical approaches.
3. To enable AI-integrated curriculum and assessment design, incorporating project-based learning, interdisciplinary methods, and innovative evaluation strategies.
4. To promote ethical, responsible, and transparent use of AI, addressing academic integrity, plagiarism, and relevant policy frameworks.
5. To empower educators to improve student engagement and institutional effectiveness through the strategic adoption of AI-enabled educational practices.
